11.30 – 13.15	LUNCH
13.15 – 14.45	<p>Parallel Breakout Group 1: “G20 Bali Global Blended Finance Alliance and Family Offices – Unlocking Sustainable Investment”</p> <p>The G20 Bali Global Blended Finance Alliance (G20 Bali GBFA) is a newly established international organisation to address the \$4.2 trn annual SDGs financing gap by helping to accelerate blended finance for climate actions and the SDGs in developing countries. Blended finance is an innovative approach combining public, private, and philanthropic capital to de-risk and scale impact investments. By aligning their financial capital with development objectives, family offices not only stand to generate attractive financial returns but also to make significant strides in closing the SDG funding gap. This breakout group explores the intersection between family offices and blended financing, and how family offices can leverage their flexible investment strategies, deep expertise, and long-term vision to drive blended finance initiatives that tackle the SDGs for a more sustainable and inclusive future.</p>

Govt Patron:

- **Pantro Pander Silitonga**, Executive Director, National Economic Council, Indonesia

Facilitators:

- **Desmond Teo**, Asia-Pacific Family Enterprise Leader; Partner, Ernst & Young
- **Spencer Hsu**, Associate Partner, Private Tax Services, Ernst & Young

13.15 – 14.45

Parallel Breakout Group 2: “Center of Future Knowledge: Creating Knowledge, Innovation and Technology Hub”

In an era of rapid tech change and climate uncertainty, the Center of Future Knowledge (CFK) stands as a hub for innovation and a sanctuary for conscious, ethical transformation. Rooted in Tri Hita Karana values, harmony between people, planet, and the spiritual, CFK invites global collaboration to shape a future where innovation, AI, quantum tech investments uplift not just economies, but collective well-being. This is a call for the New Era Bali Kerthi Roadmap: where knowledge becomes care, innovation aligns with nature, and technology serves humanity. CFK blends global innovation with local wisdom, preparing future leaders to be not just tech-savvy but deeply human, and reimagining Bali as a lighthouse of future literacy, where startups, policymakers, indigenous leaders, and technologists come together to co-create a better world. CFK is not a monument, but a movement for mindful innovation.

Govt Patron:

- **Edwin Hidayat Abdullah**, Director-General Digital Ecosystem, Ministry of Communication and Digital Affairs, Republic of Indonesia

Facilitators:

- **Amit Gupta**, Founder & Group CEO, Ecosystm Group; Past Chairman, Global Board of Trustees, TiE
- **Cokorda Dewi**, Senior Faculty Advisor, United In Diversity Foundation

13.15 – 14.45

Parallel Breakout Group 3: “Green and Renewable Energy Transition”

A shift to renewable energy to provide 65% of the world's total electricity supply by 2030 could decarbonize 90% of the power sector by 2050. This could massively cut carbon emissions and help mitigate climate change. Under the Green Bali Plan announced in 2022, Bali aims to achieve net-zero emissions by 2045. Success depends on technological adoption, policy enforcement, and community engagement. This breakout discussion explores the opportunities and challenges of Bali's renewable energy transition that is just, efficient, accessible, and affordable, as well as the need for a multistakeholder program such as HEAL (Happy Energy Action Leadership) to align policy, investments and community-engagement to drive a meaningful decarbonization process.

Govt Patron:

Samsi Gunarta, Head of Transportation Dept Bali (PMO Bali Kerthi)/ **Aulia Rizky**, Sub-Coordinator Geothermal Partnership, Directorate General of New, Renewable Energy and Energy Conservation, Ministry of Energy and Mineral Resources

Facilitator:

Shobi Lawalatala, Associate Professor and Director of Learning, United In Diversity Foundation

13.15 – 14.45

Parallel Breakout Group 4: “Regenerative Agriculture and Food Security”

Regenerative agriculture and sustainable food systems are key pillars in Indonesia's efforts to address both environmental and economic challenges. Regenerative agriculture aims to restore natural ecosystems while supporting local farmers, especially smallholders, by enhancing productivity and sustainability. Alongside this, the government has introduced policies to strengthen its agricultural base, improve nutritional outcomes, and foster inclusive growth within the food system. This breakout discussion explores the opportunities and actions needed to expand agricultural land through regenerative practices and overcome the impact of climate change to ensure food security and affordability.

Govt Patron:

- **H.E. Nani Hendiarti**, Deputy Minister for Food Affordability and Security, Coordinating Ministry of Food Affairs, Indonesia

Facilitators:

- **Pramita Indrarini**, Learning Division Manager, United In Diversity Foundation
- **Roger Pho**, PT Sarana Daun Hijau

14.45 – 15.15

Reporting Back: Synthesis and Collective Commitments

Group Reflection and Reporting Back

Each breakout group shares key insights, commitments and propose next-step actions.

15.15 – 15.45

Reflections & Way Forward

H.E. Mari E. Pangestu, Presidential Special Envoy for International Trade and Multilateral Cooperation, Republic of Indonesia

Closing Special Remarks

H.E. Luhut B. Pandjaitan, Chairman, National Economic Council, Republic of Indonesia
